- **Tools:** Git, GitHub, VS Code
- **Core:** Java (fundamentals), programming fundamentals, problem-solving
- **Currently Learning:** JavaScript, React.js, Node.js, REST APIs, MongoDB, Playwright

PROJECTS

Live-Fit — Gym Website

2026 | HTML, CSS, JavaScript [Link:- <https://fanciful-marigold-0f16ea.netlify.app>]

- Built a responsive multi-section gym website covering classes, trainers, membership plans, authentication, dashboard and contact functionality.
- Implemented responsive layouts using CSS Flexbox/Grid and media queries, with desktop, tablet and mobile views considered throughout development.
- Developed and refined features including Register/Login flow, dashboard information, trainer booking flow, membership plans, About carousel, gallery/navigation and WhatsApp-connected contact enquiry.
- Used ChatGPT, Claude and Antigravity IDE for development assistance, debugging and UI refinement, followed by manual verification of changes.

Technova — Educational Landing Page

2026 | HTML, CSS, JavaScript |

- Created a responsive educational landing page with navigation, hero content, course-focused sections and call-to-action elements.
- Structured the page with semantic HTML and consistent CSS styling, with responsive behavior for different screen sizes.
